CUSTOMS BASICS - COMPACT (8 UE)

Perfect for beginners:

This webinar is designed for employees of all companies who deal with customs issues, as well as for newcomers in the field of customs and provides an initial overview of the area of customs and international trade compliance.

LEARNING OBJECTIVES

After completing the webinar, participants should be able to answer the following questions:

When do customs regulations need to be observed?

Which authorities are responsible for customs matters?

Which company departments may be involved in customs procedures?

Which legal regulations are relevant?

Which customs forms need to be considered?

What customs procedures do exist?

Which potential can be used when correctly handling the customs requirements?
